

News search

- 8,000 emerging markets news sources in over 80 languages
- Boolean connectors
- Stemming for major languages
- Query and result translation
- Built-in and user-specific adverse terms lists

Corporate search

- Search over 300 official corporate registries globally
- Company names only
- Don't use company suffixes (SA, Ltd, PLC) - these can interfere with search
- No Boolean connectors

Custom search

- Search any chosen source
- Create collection of sources for specific checks
- Contact Arachnys support for help creating collections

Country search

- Search news, corporate, litigation and other business information focused on a specific country
- Choose INTERNATIONAL to find non-country specific information (Wikileaks, sanctions lists, etc.)

Query translation

- Translate queries to over 80 languages
- Possible to use other languages (Chinese, Russian, Arabic, etc.) in main search box if necessary
- Boolean connectors must always be in English
